

Guidelines for posters

SteelyHydrogen2018, May 29-31, Gent, Belgium

During the conference your poster will be on display in the exhibition area adjacent to the conference room. Poster format should be **A0 portrait** (width=841 mm x height=1189 mm). You will get a 1 min pitch during the conference to present your poster contribution to the full conference audience.

If you send us a full paper text (see guidelines for papers) by November 1st 2017, your contribution will also be published in the **SteelyHydrogen Conference Proceedings book**. If you prefer not to provide a full paper for your poster contribution, we will publish the received abstract instead.

Final deadline for submission of **full paper text and visuals** is **November 1st 2017** by means of e-mail to your conference scientific contact zinedine.zermout@ocas.be. The content of your contribution will be reviewed by December 31st 2017. As for the previous SteelyHydrogen conferences, your text and visuals will be processed for layout and publication in the SteelyHydrogen2018 Conference Proceedings. Only contributions (full paper or abstract in case of poster contribution) from participants registered to the conference will be published.

The Conference Proceedings Book will be made available at the beginning of the event to all conference participants. Additional copies of the proceedings will be available for purchase from OCAS.

In order to grant OCAS NV the permission to publish your paper/poster in the Conference Proceedings, you will be prompted to sign an "authorisation to publish" form prior to submitting the final paper/poster. Details about this copyright transfer are mailed to you and are also available on the website.
